LIVING LEGACY PROGRAM

This program is a result of many families wanting to honor loved ones through the perpetual growth of a tree. The City of Grapevine's Living Legacy program is a lasting tribute, and a way to honor those we love.

Depending on the location, various species of trees are available. City staff will make the final decision on the appropriate variety and location. Once planted, City staff will maintain the tree for you and others to enjoy. The recipient/family will receive a framed certificate and custom stone marker to identify the tree for all to see.

This Living Legacy program invites you to:

- ◆ Celebrate the birth of a child
- ◆ Recognize the accomplishments of an individual, group, or organization
- ◆ Commemorate a wedding
- ◆ Gift to someone for Christmas, Valentine's, Birthday, or Graduation
- ◆ Honor a loved one
- ◆ Establish a family tradition

The Planting Process

The Parks and Recreation Department has numerous locations throughout the City available for planting, as well as adopting existing trees. Not all parks and municipal property are appropriate for new trees. These special trees will be planted in areas to ensure they will thrive and be taken care of. For longevity and healthy survival of the tree, the Parks and Recreation Department will plant a 2" caliper tree in irrigated areas only. The minimum cost of a Living Legacy Tree is \$400. The value of your tree not only creates a lasting memory, but assists in beautifying the City of Grapevine.

All plantings will take place October-March only.
